March 8, 2012**

In Attendance: Peggy Johnson, Kim Thompson, Troy Tait, Tom Sherwood, Betty Shaw, Roger Pinnock, Peter Newbold,
Jana Neddo, Randy Johnson, Laurel Harris, Traci Hardell,
Marian Gladbach

[X] Approval of February 9th minutes

1. Status of speaker in large gym [Tom]

- Funds from classes of 2009, 2010, and 2011 have been pooled and will cover 50% of the cost. Tom will be pulling the other 50% from another source and hopes to have it completed by next fall.
- Baseball/softball scoreboard is shipping to be delivered in April.
- Soccer has a scoreboard that is waiting for the district electrical to wire.
- Football has been waiting on bid process for new scoreboard that will install free of charge and collect the add revenue until paid for. It has been approved so ready to move forward on it.

2. Cell Tower Money [Tom]

- District has proposed some sharing of the funds collected by schools with cell phone tower money with schools without. It would be shared among feeder systems. The first year 5% would go into a fund. The second year it would go to 15% at which point it would be distributed. The percentage would not go above the 15%. Jordan receives approximately \$35,000 in cell phone tower money. It is not expected to impact the school that much and would be considered helpful to future JHS students.

3. School Land Trust

- Suggestions were made by board members to improve ACT taking skills, increase technology in the classroom, and provide professional development outside the school for a few science teachers. Tom felt that he had the funds for the ACT taking skills, and the professional development from another source. The district has committed to covering some of the technology with the school planning to cover in other areas. It was voted to accept the Land Grant budget as is.
